SUMMARY

Certified IT professional with 5+ years running multi-site infrastructure, security, and operations for a 30+ office enterprise. I build resilient systems and automate the work around them — infrastructure that doesn't break, security that holds up, and automation that gives people their time back. Experience spans systems administration, networking, identity, endpoint management, vendor and MSP management, and disaster recovery across Windows, Linux, and cloud platforms.

TECHNICAL SKILLS

Systems & Infrastructure: Windows 10/11, Windows Server, Active Directory, Group Policy, Linux / Ubuntu Server, Docker, Proxmox VE, VMware, Synology DSM 6/7, DNS, DHCP

Cloud & Identity: Microsoft 365 / Azure, Entra ID, Okta SSO, Google Workspace

Networking & Security: SonicWall firewalls (SonicOS), RUCKUS One / ZoneDirector, Cisco, VLANs & subnetting, VPN, IPS/IDS, Cisco Umbrella, structured cabling

Automation & Tooling: PowerShell, Ansible, Bash, Git, FreshService, ConnectWise Automate / Manage / Control, AUVIK, Liongard, Prometheus / Grafana

Backup & Continuity: Druva, Datto, restic, Spanning Backup, disaster-recovery planning and restore testing

CERTIFICATIONS

Verified on Credly. CompTIA credentials are CE-renewed and current through 2027.

CompTIA — Security+ ce · Network+ ce · Server+ ce · A+ ce — with the stackable Secure Infrastructure Specialist (CSIS), Network Infrastructure Professional (CNIP), and IT Operations Specialist (CIOS)

ISC2 — Certified in Cybersecurity (CC)

Fortinet — Certified Associate – Cybersecurity (FCA) · FortiGate 7.4 Operator · NSE 3

LPI / Linux Foundation — Linux Essentials · Cybersecurity Essentials (LFC108)

PROFESSIONAL EXPERIENCE

William Pitt Sotheby's International Realty Stamford, CT | Jan 2022 – Present

IT Operations Administrator (May 2025 – Present)

- Lead IT infrastructure projects end to end for 30+ offices across CT, NY, and MA, aligning delivery with company objectives.
- Own the health, security, and performance of server, network, and identity infrastructure, holding it to documented best-practice and compliance standards.
- Manage MSP, BPO, and third-party vendor relationships to keep operations and service quality consistent across sites.
- Oversee application and system integrations so access and data flow cleanly across Active Directory, Okta, Google Workspace, and third-party platforms.
- Automate recurring operations work — account provisioning / deprovisioning, monitoring, and reporting — with PowerShell.

IT Support Specialist (Jan 2022 – May 2025)

- Managed server, security, and network infrastructure for 33 office locations across CT, NY, and MA; provided escalated support for 1,400+ end users and 200+ endpoints.
- Built tools and scripts to automate and enhance system processes; staged and provisioned network equipment for new-site deployments.
- Implemented and configured operating systems, application software, and system-management tooling; administered accounts, permissions, and access across multiple systems.
- Partnered with executives to align technology strategy with business objectives and to plan and execute network infrastructure changes and hardware procurement.

Parker Ear, Nose & Throat Norwalk, CT | Apr 2021 – Jan 2022

IT Consultant (Freelance)

- Managed and maintained network infrastructure to keep operations running with optimal performance.
- Proactively identified and resolved network issues, minimizing downtime and improving reliability.
- Delivered timely system updates and upgrades to improve overall efficiency.

KEY PROJECTS

RUCKUS One cloud migration (2023–2024)

Led migration of 31 offices and 52 access points from an on-premises RUCKUS ZoneDirector to the cloud-based RUCKUS One platform, modernizing equipment and centralizing wireless management.

Multi-site firewall refresh (2024–2025)

Replaced end-of-life SonicWall firewalls across multiple locations; coordinated vendor and internal scheduling to cut over with minimal downtime and a stronger security posture.

SimpleVOIP phone-system migration (2023)

Transitioned 30+ offices from Altigen to SimpleVOIP, documenting device and network requirements and supporting the cutover.

Onboarding / offboarding automation (2023)

Automated user provisioning and deprovisioning across Active Directory, Google Workspace, and Okta-integrated applications with PowerShell, cutting a one-hour manual process in half.

Active Directory – Okta integration for application launch (2023)

Designed custom Active Directory attributes mapped to Okta to drive tailored authentication values for ~1,200 users.

TECHNICAL PROJECTS

Self-Hosted Homelab & Infrastructure-as-Code (2021 – Present)

A production-style homelab run as code: ~30 containerized services in purpose-split Docker Compose stacks behind a Caddy reverse proxy with automatic TLS and Authelia single sign-on; Prometheus / Grafana monitoring with alerting and automated container self-healing; encrypted restic backups with monthly restore drills; a one-command Ansible rebuild of the host layer (Proxmox, VM, and NAS roles, secrets in Ansible Vault); Tailscale remote access; and configuration snapshots version-controlled in Git. Maintained with a living runbook and disaster-recovery procedures.

EDUCATION

MyComputerCareer – Information Technology Systems Administration Program (2021)

Earned World Class IT Professional (WCITP) classification and an Academic Achievement certificate (97%+ GPA); passed 8 certification exams before graduation.
